

Movers Workshop
Saturday March 28th

This is a learning opportunity, not a match

Noon until well into the evening (we will shoot after dark)

Practice shooting human-sized torsos moving at walking paces from 300, 500, and 700 yards

Cost is \$20 (\$10 for targets, \$10 donation to the range)

You will serve some time in the pits running targets

Figure a minimum of 32 rounds, easily twice that

Most people will employ Mil-Dot reticles, but you do not need one

Please arriving knowing your dope for 300, 500, and 700 yards - there will not be time or opportunity to mess around with elevation experiments
